MEMORANDUM FOR THE RECORD

SUBJECT: Effects of the Sunday Power Outage on the Director's Office

The previously announced power outage for Sunday, 15 August 1971, between 0700 and 1800 hours, to permit the installation of switchgear in one of the vaults will have little effect in the DCI area. Specifically, the telephones will be unaffected. The Director's elevator will be inoperative. Some of the fluorescent light fixtures will be out. All of the incandescent lights, i.e., served by wall plugs, will be operative. The air conditioning in the south half of the suite will be out, i.e., from the precise point which divides D and E corridors.
